# Our Scope

---

We, at Baby Buds, are starting up our own Cannabis Club in Ottawa, Canada. Our vision includes Marijuana VR Displays, limited edition bong, special NFTs, and much more! Baby Bud isn't just an NFT, It's rather a gateway to our DAO (Decentralized autonomous organisation). With much knowledge to share and an entertaining environment, we want to make crypto safe and fun for members. Our scope is to be the first legal online Cannabis store in North America to use Cryptocurrency only.

The only way to access our exclusive discord (<https://discord.gg/PnbTK4XG3h>) And our Private Telegram (<https://telegram.me/collablandbot?start=VFBDI1RFTCNDDT01Nly0xMDAxNzc1MTMwODY5>) is by holding one of our Baby Bud NFTs!

# NFTs

---

Our NFTs are composed of hand drawn traits.

- Minting and holding 1+ Nfts will automatically get you BUD tokens
- NFT Tier Benefits
- First 1250 NFTs will be priced at 0.2 BNB
- Last 1250 NFTs will stand at 0.4 BNB
- 80% of the mint will go towards marketing, research and development.
- 20% will go towards the BUD token's initial liquidity.
- 1 to 1 BSC to MATIC NFT manual Bridge system

# Token

The BUD token will get audited by Certik and have Skynet monitor the contract. Holding BUD will grant you voting power. Our token's purpose is to be the first POC (Proof of community) system where the community can vote on certain processes.

150BNB initial liquidity

Tokenomics:

1,000,000,000 BUD total supply, 7% total tax, where 3% is the marketing fee and 4% is the auto liquidity pool fee. Upon a community vote, these taxes may be adjustable.

# Marketing

---

Our clever marketing strategy was to first bring together a wonder team. From there, we use as much exposure channels available to get ourselves out there. With big names and powerful connections, we know how to chronologically set up every piece of magic we have in the box for solid sustainability. From call groups to billboards, we will make sure that every stoner in North America will recognize Bud.
